# Meeting Agenda

Group meeting for group GoAyo.

Due to various reasons, we will be proceeding today's meeting online.

## §1 Objectives

- Create tasks based on our user stories.
- Plan this week's codesprint and distribute the tasks.

## §2 Reports

- Travis CI unfortunately does not work with our project.
  - Alex has discovered another CI framework which appears to be working.
  - We will try to resolve this next meeting.
- The first draft of our domain model is finished.

## §3 Discussion Items

- User stories and tasks
- Codesprint

## §4 Outcomes and Assignments

- Outcomes
  - User stories for the week (US) = {US04, US05, US06, US08, US16}
  - User stories and tasks
    - We have placed all of our user stories into different priority levels.
      - High, medium and low.
    - Tasks for (US) have been constructed.
  - Codesprint
    - This week's scrum master: Oscar
    - Scrum board for this week (w.38) has been created.
    - (US) will be our focus this week.

- Assignments
  - Alex and Olof
    - Responsible for US04 and US05
  - Gabriel and Yenan
    - Responsible for US06 and US08
  - Oscar
    - Scrum master
    - Responsible for US16
    - If Oscar has spare time left after having finished US16, he may look into suitable databases.

## **§5 End of Meeting**

- Next meeting at the seminar tomorrow. Time unspecified.
