

Facilitator: Oscar Sanner
Participants: Oscar Sanner, Olof Sjögren, Alex Phu, Yenan Wang
Location: HA3
Date: 2020-10-19

Meeting Agenda

Group meeting for group GoAyo.

§1 Objectives

- What do we have to do this week to finalize the project.

§2 Reports

- N/A. No assignments were issued over the weekend and reports from the previous week were discussed in Friday's meeting.

§3 Discussion Items

- What do we have to do this week to finalize the project.
 - What do we need to do on our RAD
 - What do we need to do on our SDD
 - Which tests are left to perfect.
 - How will we displace the work among the group members?
- What's left from last week?

§4 Outcomes and Assignments

- What do we have to do this week to finalize the project.
 - What do we need to do on our RAD
 - Domain model.
 - Nonfunctional success criteria for user stories.
 - Pictures of the GUI.
 - How to use the app.
 - What do we need to do on our SDD
 - EventBus and why?
 - How we deal with JSON strings and the database.
 - Everything that could be considered bad practise has to be documented.
 - Update the UML
 - Rewrite parts that have been changed since the last iteration.

- Sequence diagram for the SDD.
- Which tests are left to perfect.
 - ModelEngine: More assertions.
 - Randomize tests if we have time for it.
 - Check code coverage.
- How will we displace the work among the group members?
 - We will work individually with great cohesion.
- What's left from last week?
 - Finalize the exceptions.
 - Search the project for “Todos” and handle them.

§5 End of Meeting

- Next meeting will be on thursday, 2020-10-22.
- We will meet with Pelle and come up with the remaining questions we have for him.
