Facilitator: Oscar Sanner
Participants: Oscar Sanner, Olof Sjögren, Alex Phu, Yenan Wang
Location: HA1, Campus Johanneberg
Date: 2020-10-08

Meeting Agenda

Group meeting for group GoAyo.

§1 Objectives

- Discuss what to talk to Pelle about.
- Meeting with Pelle
- What do we have left to implement?
    - User stories?
    - Bug fixes?

§2 Reports

- Team Olof and Oscar:
    - Made good progress on EventBus and other issues related to this week's codesprint.
    - Will resolve database issues before the sprint closes.
    - Will complete set out tasks.
- Team Alex and Yenan.
    - Resolved group creation.
    - Will complete set out tasks for this week before the end of sprint.

§3 Discussion Items

- Discussion with Pelle:
    - Injecting a json parser to rid the model of library dependencies.
    - How is our event bus solution?
    - How is our peer review in terms of pages and using images in appendix?
- What do we have left to implement?
    - Which user stories will we complete before the project concludes?
    - Which bugs do we have left to smoke out?

§4 Outcomes and Assignments

- Discussion with Pelle:
  - Injecting a json parser to rid the model of library dependencies.
  -
  - How is our event bus solution?
  - How is our peer review in terms of pages and using images in appendix?
- What do we have left to implement?
  - Which user stories will we complete before the project concludes?
    - We have to create a user story for leaving group functionality
  - Which bugs do we have left to smoke out?
    - We have to properly debug the application and test for all possible scenarios.
    - We have to properly implement exceptions.
    - We have to write better tests.
    - We comment on all the code.
    - Look over code style. Format all code properly.

§5 End of Meeting

- Next meeting: Tomorrow 2020-10-09, on campus Johanneberg.
